Product Data Sheet

Onsite Basic Operator Course

Course Description

The course content consists of a short theory session covering key areas such as, legislation and risk assessment followed by a practical side which covers use of the equipment. The objective is for all delegates to gain confidence in their ability to operate the equipment.

Course Objectives

After completing the course the delegate will:

- Have a basic understanding of the regulations affecting the mobility impaired
- Be able to prepare the equipment ready for use
- Manoeuvre the equipment to the escape route and down the stairs
- Use of the equipment within your workplace
- Return the equipment to its storage position
- Have confidence in the equipment and the ability to operate it

Course Duration

The course is conducted in house and lasts for around 1 hour per group of 4 delegates

Class Size

Max 8 delegates, split into 2 sessions per course. Max number of delegates per session is 4

Please note:

- The course is run in-house using your own equipment
- On completing the course, all successful delegates will receive a certificate of attendance
