Product Data Sheet

Onsite Train the Trainer Course

Course Description

The course is designed to train key members of staff who have been given responsibility by their employer to assist in the evacuation of the mobility impaired within their premises and to a level so they can cascade basic training to others on how to use the evacuation equipment.

The course content consists of power point theory session covering key areas such as:

- Current UK legislation
- Those who may need assistance
- Possible reasons to evacuate
- Where to locate your equipment
- Evacuation Do's and Don'ts

Followed by a practical session for delegates to practise and gain confidence in the equipment and their own ability.

Course Objectives

After completing the course each delegate will:

- Have a good level of knowledge as to the issues affecting the mobility impaired to answer colleagues questions and assist where necessary, in preparing a PEEP
- Be able to prepare the equipment ready for use
- Manoeuvre the equipment to the escape route and down the stairs
- Use of the equipment within your workplace
- Return the equipment to its storage position
- Have confidence in the equipment and the ability to operate it
- Be able to carry out their own training sessions and safely instruct others

Course Duration

The course is conducted in house and lasts for around min 2.5 - 3 hours

Class Size

The maximum number of delegates is 4

Please note:

- The course is designed to deliver training in house only and is not a commercial training certificate
- The course is run in-house using your own equipment
- On completing the course, all successful delegates will receive a certificate of attendance.
- A Trainer's Pack will be made available to download to assist in preparing your internal cascade training
