Product Data Sheet

Evacusafe Tri-Wheel
Transit Chair

The innovative **tri-wheel system** can assist the operators in reducing the manual handling required to **ascend or descend** a staircase on routes to the exit levels.

A cost-effective option for basement level evacuations and minimal stair descents.

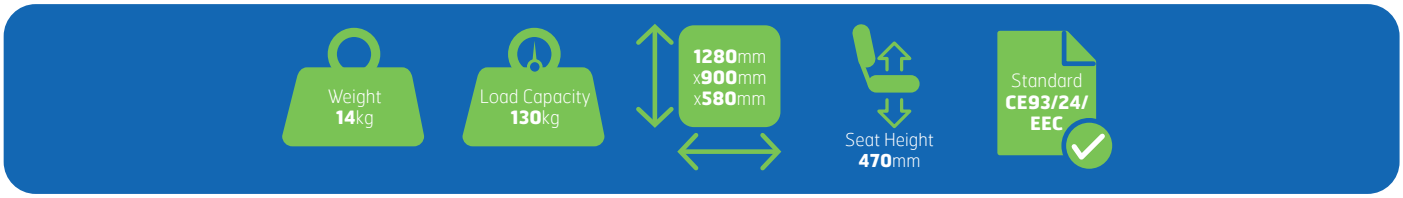

Features

- Lightweight, sturdy construction permits a 130kg load capacity
- Lap seatbelt for passenger safety
- Carrying/lifting points for operator control
- Comfortable seat and high back support
- Arm and footrests for extra comfort
- 3 wheeled ascent/descent mechanism reduces the manual handing required

Included with the Tri-Wheel Chair

- Visual inspection sheet
- Operator guide

Note: *A minimum of 2 operators are required to carry the chair but additional may be necessary depending on the weight to be lifted. Because of the lifting and Manual Handling involved, it is recommended that full Risk Assessment and PEEP should be carried out prior to purchase.*
